

Adding **Joy** to the Job of Recruitment

PowerAdder: Analytics by JobAdder

Understand how to plug the leaks in your revenue pipeline

What

Get a 360 degree view of your consultants, your placements and your candidate database.

View real-time dashboards for top billers, open jobs, won and lost companies, sources, active contractors and overall efficiency.

Understand how your business is performing at a glance and spot opportunities for improvement and growth.

Why

1. Focus on the right initiatives to scale and streamline your business
2. Reduce busy work by eliminating the need for manual data analysis
3. Identify opportunities for coaching and development of your team

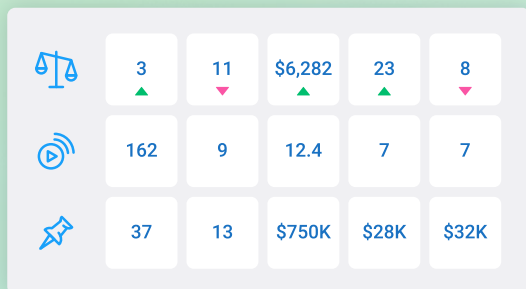

How

- ✦ View real-time interactive dashboards
- ✦ Slice, dice and drill down to discover underlying insights
- ✦ Download, send and schedule reports
- ✦ Set access level based on team, location or dashboard
- ✦ Broadcast key dashboards to a large screen

Interface

Broadcast key dashboards to a large screen

When

- ✦ You want to analyse your JobAdder data without requiring spreadsheets
- ✦ You want to go beyond the out-of-the-box reporting included with JobAdder
- ✦ You want to spend more time on activities that drive revenue
- ✦ You want to identify high and low performing consultants
- ✦ You want to track the end-to-end performance of your business
