Agency recruitment software that just works!

jobadder.com

Recruitment management for agencies

JobAdder is designed to simplify and streamline the day-to-day tasks involved with recruitment agency management.

Automate manual tasks

Our Applicant Tracking System automates manual processes so you can focus on what's really important - sourcing and interviewing candidates.

One platform that does it all

Manual tasks are eliminated and recruitment processes streamlined. JobAdder enables everything to happen centrally and efficiently.

From writing and posting job ads to multiple job boards, to managing applications, screening, scheduling interviews, sharing shortlisted candidates and doing reference checks you'll love the time savings that JobAdder delivers.

Source faster

Increase your productivity by harnessing Artificial Intelligence (AI) to automate candidate sourcing. Low value administrative tasks are eliminated and you'll love the extra hours available in your busy day.

Search your database and match candidates to your job before even posting an ad. Imagine filling a position before spending any advertising budget!

It's quick and easy to uncover people in your database that are a good fit when you utilise JobAdder's 'find your top 10 candidates' function.

Build talent pools

Sourcing talented people is simple when you have the ability to build talent pools for upcoming vacancies. Once you've found your candidates, it's vital that you keep them engaged. JobAdder allows you to effortlessly send targeted correspondence to candidates at every stage of the recruitment process.

Create your own branded careers page

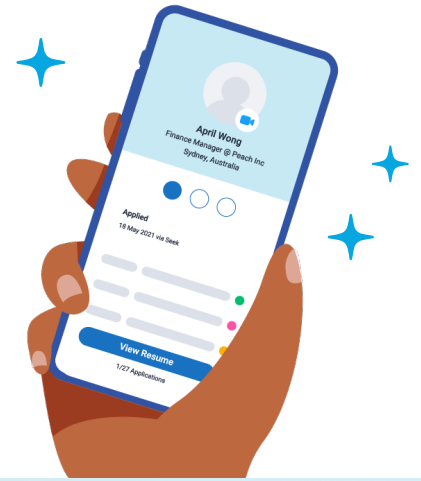

Keep full control of the candidate experience on your website. Customise your careers page to showcase the roles you're recruiting for.

Mobilise your recruitment

Work from wherever you are with the JobAdder mobile app, it's available for iOS and Android devices. Everything you need is available at your fingertips, wherever you are and whenever you need it.

Automated reminders to help you follow up

Never forget candidate calls that get buried under meetings. Action them the next time you're in the app with smart reminders.

Powerful optional tools to supercharge the solution

Chrome extension

Use our Chrome extension to uncover passive candidates on social media sites and then add their profiles and contact information directly to your JobAdder database.

Analytics

Your data is powerful and Analytics allows you to harness it and track the metrics that matter. Graphical reports and dashboards place a spotlight on all areas of recruitment.

Lead management

Streamline business development with Opportunity Pipeline, it allows busy agencies to effortlessly capture, manage and oversee their inbound leads and sales funnel.

Smart Forms

Eliminate manual data entry with customisable forms that allow you to collect and store the data that's needed from candidates.

Email Sync

See the emails you send and receive from JobAdder in your inbox when you sync your Office 365 or Google Apps email with JobAdder.

Lead Generator

Know when your clients are looking for candidates with our Lead Generator tool, you can expect a curated list of all the jobs your clients have recently posted online delivered directly to your inbox.

Save time

Posting job ads is quick and easy, simply write your job ad once and the rest is automated. No matter the niche, JobAdder delivers direct access to over 200 of the world's leading job posting boards and social media sites.

Integrated with the tools you use everyday

JobAdder has over 120 integration partners globally. Our public API ensures tight integration with tools for AI sourcing, marketing, video interviewing, payroll, HRIS and everything else in between.
